3. **STANDARDS REFERENCED.** American Correctional Association 4th Edition Standards for Adult Correctional Institutions: 4-4156, 4-4267, 4-4285, 4-4498, 4-4499, 4-4499-1, 4-4500, 4-4501, 4-4503, and 4-4504.
4. **GUIDELINES.**
 - a. **Visiting List.** Each inmate desiring visitors during confinement at FPC Montgomery must request a visiting list. This list includes immediate family members and additional proposed visitors. The list is limited to a total of twenty-five (25) visitors (16 and older). The list should be submitted to the Correctional Counselor for approval within the first two weeks of the inmate's confinement at this facility. Normally, approval of visitors already on an inmate's visiting list is not required for inmates transferring from one institution to another. Inmates may make changes to their visiting list without limitation. Upon request, the appropriate Counselor will provide inmates a Visitor Information Form (BP-629) and a Notice to Visitor of Visiting Regulations (Attachment A) for proposed visitors. It is the inmate's responsibility to ensure each proposed visitor is issued a copy of these forms. The forms shall be mailed back to the respective Counselors. Completed Visitor Information Forms will not be accepted directly from inmates.
 - (1) A verified member of the clergy may be included in addition to the 25 visitors, but must be processed through regular visiting procedures and visit during regularly scheduled visiting hours.
 - b. Upon receipt of the returned questionnaire, the unit team will determine if the visitor is approved or disapproved. Staff may request background information from potential visitors who are not members of the inmate's immediate family, before placing them on the inmate's approved visiting list. If the background information reveals that visitation privileges for the individual would present security concerns or disrupt the orderly running of the institution, the Warden may

deny visiting privileges. The inmate's assigned Correctional Counselor will then give written notification to the inmate of the visitor approval or denial. Due to the Freedom of Information Act, information contained in, or a part of the Visitor Information Form (BP-629) cannot be disclosed to the inmate. Visitor applicants with felony convictions can only be approved or disapproved by the Warden or designee. The inmate is responsible for notifying the visitor of approval or disapproval, and is expected to provide the approved visitor with a copy of the visiting guidelines and directions for traveling to and from the institution.

Proposed visitors will be required to furnish information requested on the Visitor Information Form (BP-629). The form must be completed in its entirety, signed, and returned to institution staff by the proposed visitor prior to any further action concerning their approval to visit. Upon receipt and review of the authorized forms, the unit team will determine if the visitor is approved or disapproved. Staff may request background information from potential visitors who are not members of the inmate's immediate family, before placing them on the inmate's approved visiting list. If the background information reveals that visitation privileges for the individual would present security concerns or disrupt the orderly running of the institution, the Warden or designee may deny visiting privileges. The inmate's assigned Correctional Counselor will then give written notification to the inmate of the visitor approval or denial. Due to the Freedom of Information Act, information contained in, or a part of the Visitor Information Form (BP-629) cannot be disclosed to the inmate.

Upon receipt of any authorized forms from potential visitor applicants who are other relatives (non-immediate), or non-family members (i.e. friends or associates) with felony convictions, an official background (NCIC) check will be conducted. Potential visitor applicants can only be approved or disapproved by the Warden or designee. Upon approval of each visitor, the inmate will be provided with a copy of the visiting guidelines. The inmate is responsible for notifying the visitor of approval or disapproval, and

is expected to provide the approved visitor with a copy of the visiting guidelines and directions for traveling to and from the institution.

If the background information reveals that visitation privileges for the individual would present security concerns or disrupt the orderly running of the institution, the Warden or designee may deny visiting privileges. Documentation reflecting this decision will be maintained in Section 2, of the Privacy Folder in the inmate's central file.

- (1) **Approved Visitors.** Members of the immediate family include mother, father, step-parents, foster parents, brothers, sisters, spouse, and children. These individuals are placed on the visiting list, absent strong circumstances which preclude visiting. Other relatives, such as grandparents, uncles, aunts, nephews, nieces, in-laws, and cousins are not considered as immediate family and will be denied a visit if they are not on the inmate's approved visiting list. They may be placed on the approved list if the inmate wishes to have visits from them regularly, and if there is no reason to exclude them. Staff should obtain background information on potential visitors who are not immediate family members based upon information indicated on the authorized form.
- (2) **Friends and Associates.** The visiting privileges ordinarily will be extended to friends and associates having an established relationship with the inmate prior to confinement, unless such visits could reasonably create a threat to the security and good order of the institution. Exceptions to the prior relationship rule may be made, particularly for inmates without other visitors, when it is shown that the proposed visitor is reliable and poses no threat to the security or good order of the institution. Regardless of the institution's security level, the inmate must have known the proposed visitor prior to incarceration. The Warden or designee must approve any exception to this requirement.

c. FPC Montgomery does not house inmates in holdover

status.

- d. Ordinarily, only visitors who have had a relationship with the inmate prior to incarceration can be placed on the visiting list. However, volunteers with the Prisoner Visitation and Support (PVS) organization can be placed on a inmate's visiting list. Requests to be placed on a inmate's visiting list are sent directly to the Warden by PVS staff. PVS visitors must have all appropriate visitor screening including local law enforcement checks and NCIC clearances.
5. **COMPUTERIZED VISITING PROGRAM.** Once an inmate submits his initial visiting list, the Correctional Counselor will verify immediate family members through documentation available in the central file and enter them into the visiting computer, ordinarily within seven days of receiving the required information. As the Correctional Counselor receives the visiting forms back from non-immediate family visitors, and if approved, they should also be entered into the computer. Unit staff will enter all available data on visitors, to include addresses, social security numbers, telephone numbers, etc. When Visiting Room Officers are processing visitors into the visiting room, they should be alert to changes in visitors' address and make changes as indicated in the visiting computer program. Each inmate's visiting record will be maintained by the visiting computer program. All Notification to Visitor Forms will be kept on file for one year.

The Correctional Counselor will maintain a updated hard copy duplicate of all inmate visiting lists in the Operations Center. These hard copy files will be used as a backup to the computerized visiting program.

6. **SPECIAL VISITS.** The Warden may authorize special visits to accommodate unique circumstances. An inmate may request a special visit by submitting an Inmate Request to Staff (BP-148) to his Unit Manager. Ordinarily, requests for special visits should be submitted at least seven (7) days prior to the date of the requested visit.

If a special visit is approved, the Unit Manager will notify the inmate and ensure the information is keyed into the visiting computer prior to the scheduled visit. If this is not possible, a hard copy of the Approval for Special

Visit will be forwarded to the Visiting Room. Should a request for a special visit be made during the course of visiting, the IDO will be the sole approving authority. Special visits will be kept to an absolute minimum and based on extreme or unusual circumstances. Special visits must take place during regular visiting hours and will be supervised by Visiting Room staff.

7. **ATTORNEY VISITS.** Attorneys will ordinarily be required to give twenty-four (24) hours advance notice of their desire to visit with an inmate. The unit team will coordinate the request, to include placing the inmate on call-out, and reserving the Attorney Visit Room. Unit staff are also responsible for providing constant visual supervision of the visit, as well as the inspection and inventory of the attorney's briefcase and other articles brought into the facility. In the event an attorney requests to bring special equipment into the institution (as frequently occurs when a deposition is to be taken), they must provide a letter of request to the Warden listing the type of equipment, and the names and positions of any other individuals who will be meeting with the inmate.
 - a. When the attorney arrives at the institution, the unit team is to be contacted to confirm the visit has been approved. The unit team will verify the attorney's status via the attorney's state bar card and will ensure the attorney completes the Notification to Visitor Form (BP-224) and the Visiting Attorney Statement (BP-241). The unit team will also inspect the attorney's briefcase and other material approved for entry into the institution. The unit team will then be responsible for escorting the attorney to the Attorney Visit Room. Once the attorney is in the visiting area, the supervising staff will contact the inmate to report for the visit. Inmates may never approach the attorney during the processing procedure. At no time will the inmate be allowed to receive anything as part of this visit without prior approval. Inmate violators may receive disciplinary action.
8. **HOSPITAL VISITS.** Inmates hospitalized in the local community for an extended period of time may receive visits. If an inmate is on a medical furlough, he may receive visitors in accordance with the hospital's rules and policies. If an inmate is hospitalized under staff supervision, visits will ordinarily be allowed for those

individuals already on his approved visiting list, and must comply with hospital and BOP rules and regulations.

a. Upon request from the Operations Lieutenant or the IDO, the unit team will provide a copy of the inmate's approved visiting list.

9. **SPECIAL CLERGY VISITS.** Clergy visits will be coordinated by the Chaplain.

a. When the visit is a one-time or infrequent visit, the Chaplain will send a memorandum to the visiting room officers informing them of the pastoral visit.

b. When a clergy visits on a regular basis, the clergy must send a copy of their theological credentials along with a letter requesting regular visits. If appropriate, the Chaplain will request the clergy be added to the visiting list and they will visit during regular visiting hours.

10. **OTHER CONDITIONS.** When approving visits, staff should take into consideration the time and administrative expenses incidental to arranging and supervising those visits. Additionally, visits should be conducted without unnecessary and intrusive interference of other institution activities.

FPC Montgomery does not have a special housing unit.

FPC Montgomery does not have a non-contact visiting area.

11. **VISITING ROOM OPERATIONS.**

a. **Visiting Hours and Facilities.** The Visiting Room will be open Saturdays, Sundays, and Federal Holidays 8:00 a.m. to 3:00 p.m.

Visitors will enter Maxwell Air Force Base via the Bell Street gate only. No visitors will be allowed entrance onto the base or entry into the Visiting Room after 2:00 p.m.

FPC Montgomery is a tobacco-free facility. Tobacco products and related paraphernalia are not permitted within the institution.

b. **Dress Code.**

(1) **Inmates.** Inmates are required to be in the full

work uniform consisting of the institution green trousers, the green dress button-down shirt or brown t-shirt and green web belt while engaging in any type of visit (e.g., social visits, legal visits, special visits). The uniform shall be neat and clean in appearance and shall be worn in the intended manner (e.g., shirts buttoned and trousers worn at the waist). Clothing that is excessively worn, tattered, or altered will not be allowed. Headgear such as hats, caps, wave-caps and do-rags are not authorized in the Visiting Room. Approved religious headgear may be worn; however, all religious headgear is subject to search. Undergarments shall be worn at all times. Sleeveless clothing, halter tops, see-through clothing, tank tops, spandex or strapless dresses, or any other apparel of a potentially revealing nature is not permitted. - e. **Terminations.** In the event of termination of a visit, due to the inmate's or visitor's failure to comply with Visiting Room Regulations, a staff member will instruct the inmate to leave the Visiting Room. After the inmate has exited the Visiting Room, a staff member will inform the inmate's visitor that the visit has been terminated. The inmate will not be permitted contact with the visitor once the decision has been made to terminate the visit. Infractions of the visiting regulations and violations of inmate prohibited acts may be grounds for termination of a visit and removal of the visitor from the visiting list. Adverse weather conditions, an institutional emergency, or visitor overcrowding may also necessitate the termination of visits. The Institution Duty Officer (IDO) and the Shift Lieutenant may terminate visits under any condition they feel interferes with the secure and orderly operation of the institution.
- f. **Seating Designations.** To prevent the passage of contraband and to ensure the security and good order of the institution, the Visiting Room will be set up in a manner that allows an unobstructed view of all areas within the Visiting Room and outside patio area. Additionally, the officers assigned to work the Visiting Room should make periodic rounds of every area accessible to inmates and their visitors. The Visiting Room Officers have the authority to make specific seating designations at their discretion. Inmates who have been identified for assigned seating because of visiting regulations infractions are to be seated in chairs stationed directly across from the Visiting Room in the processing area.

- (1) All visitor seating will be arranged in a manner that allows clear visual observation by the Visiting Room Staff at all times. Visitors may never reserve or save a seat by leaving articles on the chairs. Under no circumstance will the chairs be moved from the area in which it has been placed by the Visiting Room Officer. In addition, no chairs will be removed from the Visiting Room to the outside patio area.
 - (2) Inmates and their visitors are required to engage in appropriate conduct in the Visiting Room. Behavior which violates Visiting Room Regulations will not be tolerated and will result in immediate termination of the visit and disciplinary action against the inmate involved. Inmates and visitors are encouraged to engage in appropriate behavior and enjoy the opportunity to visit without encumbrance. Intimate physical contact between inmates and visitors is prohibited. Inappropriate physical contact between inmates and visitors is a violation of Visiting Regulations and is offensive to others as well. This form of behavior will not be tolerated and will result in immediate termination of the visit and disciplinary action against the inmate.
- g. **Limitation Of Visitors.** Normally, the limit will be four (4) adult visitors per inmate at any given time. However, if overcrowding exists, this number may be reduced. If terminations occur due to overcrowding, visits will be terminated by the IDO and Shift Lieutenant.
- (1) The maximum capacity rating assigned to the visiting room is 550 people. When this number has been reached, the termination of some visits may occur. Every consideration will be given as to the frequency of visits and the distance traveled.
 - (2) Visits where a warning had been made by the officer regarding rules will be terminated next. Any person in a group denied visits while others are allowed, must depart the institution grounds entirely. They may not remain on the grounds or

in the parking lot while others visit.

- (3) In the event of termination of a visit, due to the inmate's or visitor's failure to comply with Visiting Room Regulations, a staff member will instruct the inmate to leave the Visiting Room. After the inmate has exited the Visiting Room, a staff member will inform the inmate's visitor the visit has been terminated. The inmate will not be permitted contact with the visitor once the decision has been made to terminate the visit.

h. **Children Under Age 16.** All children under the age of 16 years must be accompanied by an approved adult visitor. Inmates and visitors will be responsible for keeping their children quiet so as not to disturb others in the Visiting Room. Direct parental supervision is mandatory for all children. No child shall be in the outside visiting area without parental supervision. Infractions of the above could result in termination of the inmate's visit.

- (1) Realizing the importance of having children visit, it is equally important that children be properly supervised in the Visiting Room. The responsibility of ensuring children in the Visiting Room are properly supervised rests on the inmate. Inmates are to accompany and supervise their children everywhere except the restrooms. The Visiting Room Officers are not responsible for the supervision or correction of any misbehavior of children visiting; however, the officers are responsible for maintaining order in the Visiting Room. Should an officer observe a child, or children, acting in an inappropriate manner, the officer will normally address the concern with the inmate. It is the inmate's responsibility to address the situation with the child and the visitor who brought the child. It should be understood by the inmate population that any inappropriate, extreme, hazardous, or offensive conduct displayed by a child which impacts negatively on the operation of the Visiting Room, and which cannot be successfully controlled by the inmate, may result in termination of the visit. Children are to remain under the direct supervision of the inmate

and are not permitted to wander, stroll or run around in the Visiting Room.

- (2) A section of the visiting room will be set up and equipped to provide facilities for the children of visitors. Inmates are allowed inside the children's area with their own children.
- i. **Visiting During Count.** In preparation for the 10:00 a.m. count, inmate traffic to and from the Visiting Room will be terminated thirty (30) minutes prior to the Institutional Count. Inmate traffic will resume after count has cleared. The 10:00 a.m. count is a stand-up count. Inmates will be counted in an area separate from the visitors. All visiting room counts will be double counted.
- j. **Departures.** Once an inmate or visitor departs the visiting room, for any reason, the visit is considered terminated unless prior approval has been received for a critical reason. The IDO must be contacted for approval in these instances.
- k. **Fire Alarms.** In the event of a fire alarm within the Visiting Room during visiting hours, or while inmates are being processed out at the conclusion of visiting hours, all inmates still in the visiting room will exit the doors leading to the outside patio area. Inmates will not exit the patio area and return to the general population until the fire alarm is cleared and accountability is established by staff.
- l. **Sanitation.** Once the visiting day begins, it is the responsibility of every inmate in the visiting area to maintain the sanitation level of the visiting room. If an inmate or visitor spills any food or beverages, that inmate will be responsible for cleaning up the area.
12. **VISITOR IDENTIFICATION.** Visitors must provide sufficient identification to ensure positive identity as an approved visitor.

This identification must be a picture-type I.D., such as a valid driver's license or a similar government issued identification that has a picture of the individual on it. Special circumstances may be referred to the IDO for review and approval/disapproval. Each visitor will be required to

complete the Notification to Visitor Form (BP-224), English or Spanish version, and sign the Visitors Log maintained at the officers' station prior to each visit.

- a. The door that is utilized by the inmates for entering and departing the Visiting Room will be locked and controlled by a Visiting Room Officer at all times during visits. No inmate will enter or depart the Visiting Room until processed by a Visiting Room Officer. Visiting Room Officers will identify (by commissary card), pat search, and record all inmates entering and departing the visiting room. The cubicles located at the inmate processing station will be used for the pat and visual searches.
 - b. Staff will conduct random visual searches of inmates departing the Visiting Room. On an as-needed basis, or upon suspicion, visual searches will be performed by staff prior to the inmate returning to the general population.
13. **ENTRANCE ONTO MAXWELL AFB.** All inmate visitors are required to be processed by Maxwell Air Force Base Security Forces. This will be accomplished when the visitor arrives at the Bell Street Gate entrance of Maxwell Air Force Base. Visitors must provide Security Forces with all required documentation for entry onto the base.
- a. **Required Documents.**
 - (1) Valid driver's license or other approved picture I.D.
 - (2) Valid Vehicle Registration.
 - (3) Valid Vehicle Insurance.
 - b. **Route and Method of Travel.** Upon arrival at the gate, Security Forces will give visitors specific instructions on the route and method of transportation that will be used to travel to and from the Federal Prison Camp. These routes and methods are at the complete discretion of the United States Air Force and Maxwell Air Force Base and are subject to change without notification.

Parking areas are provided by Maxwell Air Force Base and are subject to change without notification. Visitors are to park in the approved area and ride the

bus to the Visiting Room. The buses run at fifteen minutes intervals and begin boarding at 7:45 a.m. Parking at the Visiting Room parking area is restricted to vehicles with handicapped tags or valid military decals. All other visitors must park where directed and ride the bus.
